

Aditya Kotkar

Mira-Bhayandar, Mumbai, Maharashtra - 401105

Mobile: +91-9867317247/+91-7977247310

Email: kotkaraditya98@gmail.com

EDUCATION

- **Centre for Development of Advanced Computing** Pune, India
Post Graduate Diploma in Advanced Computing; Grade: B September 2021 - April 2022
- **Savitribai Phule Pune University** Pune, India
Bachelor of Engineering - Computer Engineering; CGPA: 7.34/10 August 2017 - July 2021

SKILLS SUMMARY

- **Languages:** Python, Java, C/C++, Bash, Javascript, HTML/CSS
- **Frameworks:** MITRE Attack, OWASP Top 10, Cyber Kill Chain, DVWA
- **Tools:** Burpsuite, Wireshark, Nessus, Nmap, Metasploit, GoBuster, Beef, Powershell, OWASP Zap
- **Platforms:** VMWare Workstation, Oracle VirtualBox, Anaconda IDE, Microsoft Visual Studio, Power BI
- **Operating System:** Windows, Linux
- **Soft Skills:** Adaptability, Problem Solving, Detail Oriented, Team Collaboration, Time Management
- **Others:** Databases - MongoDB, MySQL
- **Training:** CCNA(Cisco Certified Network Associate), CEHv12(Certified Ethical Hacker)

INTERNSHIPS

- **PHN Technology** Remote
Trainee April 2023 - June 2023
 - **Corporate Readiness Program:** Gained practical skills and insights into effective teamwork, problem solving, compliance and effective business etiquettes.
 - **Domain Specific Assignments:** Developed and deployed project with methodologies and tools essential for successful delivery within timeline. Applied projects management principles to have structured and strategic outcome pertaining to flexible approach in case of reviews and changes.
 - **Project Overview:** Worked on preparing a report on budget analysis using excel, design landing pages, created dynamic web pages with mail delivery system, software deployment with realtime exposure to DevOps practices and its tools.
- **iStudio** Remote
Machine Learning Engineer Intern July 2020 - September 2020
 - **Developed a comprehensive report on Marketing Campaign for Banking:** Analyzed and classified data of the banking customers to predict the certainty of liability customer buying personal loans.
 - **Performed training and classification on dataset containing banking details of 5000 customers using python libraries:** Prepared statistical summary by performing data visualization and distribution with seaborn, matplotlib. Build and implemented model using sklearn libraries like logistic regression, confusion matrix, accuracy score, f1 score, feature extraction with count vectorizer, naive bayes, kneighbour classifier and performance metric using roc curve, auc, roc auc score for observations.

PROJECTS

- **Splunk Based Detection Lab:** Designed and implemented data logging architectures for the lab. Understood combination of logging solutions and tools. Configure Firewall(OpnSense) Rules to Isolate Windows machines from the network(to prevent malware break-out) and to limit connection only to the Logging server and Internet. Installed docker on linux to get support to run containers. Install Splunk Analytics Platform as the container. Setup and Configure Sysmon on Windows and observed Telemetry in event-viewer, Splunk Universal forwarder to send Windows native logs and Sysmon logs to Splunk. Observe Live Data in Splunk by performing actions in a Windows machine and observing corresponding logs in Splunk.
Observation - Endpoint telemetry being ingested to Splunk and can start simulating endpoint-based threats and observe/query/hunt/detect threats on the Splunk Platform.

PUBLICATIONS

- **Low rate DDoS Attack Identification and Defense using SDN based on Machine Learning Methods:**
International Research Journal of Engineering and Technology (IRJET), Volume : 08 Issue : 03 Year - March 2021
- **Automated Web Attack Detection Using Machine Learning Techniques :**
International Journal for Science and Advanced Research in Technology (IJSART), Volume : 07 Issue : 06 Year - June 2021

VOLUNTEER EXPERIENCE

- **ACM-W Professional Pune Chapter, PCCOE** Pune, India
Attended and volunteered two days workshop on Startup and Design Thinking. February 2019
- **Seminar on Machine Learning based Motion Gestures Recognition, Sinhgad Institutes** Pune, India
Got hands-on practical experience with real-time hand pose estimation and gesture classification. January 2020
- **Copilot Day Pune 2023, Pune Tech Community** Pune, India
Participated in a workshop demonstrating use-cases of Microsoft 365 Copilot in enterprises and business services. October 2023
